

A Special Meeting was held at the Village Park to discuss the IDNI Open Space Land Acquisition and Development (OSLAD) Grant for Village Park Improvement on July 1, 2024 at 5:30 pm.

**Present:** Berens, Rock, Krause, Mills, Jehle and Flessner

**Also Present:** George Halpin and Marlon Donley, Cullom Jr. Fair Board Representatives

A discussion was held as to what could be done with the present pavilions and other park structures that would improve the park for both the village and the Cullom Fair to use during the annual Cullom Jr. Fair.

A map showing the park as it appears now was used as a reference as to what park facilities could be moved, improved on and replaced.

After much discussion, the project will be sent to the Engineer for further assessment and recommendations. The committee will meet again after recommendations have been made to make the final decision as to what changes and improvements will be done.
